SECOND SET OF INFORMATION REQUESTS OF THE
DEPARTMENT OF TELECOMMUNICATIONS AND ENERGY TO
KEYSPAN ENERGY DELIVERY NEW ENGLAND

DTE-2-22

Date: February 14, 2006

Respondent: Theodore Poe, Jr.

- Q. Please present data on “peak day sendout” and “design day sendout” for the last 20 years (forecasted and actual volumes).
- A. Please refer to the attached charts for a summary by division of the actual observed peak day sendout per calendar year, and the associated forecasted design day sendout. For all sendout data, the Company has strived to maintain consistency by providing sendout to all customers using utility capacity. “#N/A” indicates where the Company has no records of the data.
